Date: 28.04.2023

## LETTER OF RECOMMENDATION

I am lettering this with pleasure to give my highest recommendation possible for Mr. Syed Aamer Nawaz to support his application for Ph.D. program at your prestigious university. As a meticulous student at our college. I have known Aamer for five years and in his internship at Kamineni academy of medical sciences and research. Academically found him to be a diligent student, who has shown improvement every year. Apart from being a principal, I taught him "Pharmaceutical analysis" as a part of his academics.

During my acquaintance with Aamer, the notable quality that has thoroughly impressed me is his sharp thinking and his acuteness in grasping anything new in his field which makes him understand even the intricate details easily. His ability to handle pressure situations is extremely commendable. His obedience and punctuality are other two exceptional qualities which make him an ideal student. His keen insight into the learning process and innovative thinking can be reflected in various technical symposia he took part in at different colleges. His presentation of reports has been very good, indicating impressive communication skills. He can carry out practical work independently and can extend good cooperation in team work.

Aamer continues to impress me with his knowledge, skill, and dedication. He is a self-directed learner with a vision, perseverance, and diligence. I am confident that he, as a student with great zest for higher academic pursuits and aptitude for research, will do well and I strongly recommend his admission into your university with possible financial assistance. I wish Aamer all success in his future endeavors. For further information please feel free to contact me.

Sincerely,

  
Dr. ARAVINDA REDDY, P  
M. Pharm, PhD, FIC  
Principal & Professor
