TO WHOM IT MAY CONCERN

This is to certify Dr. Ratnaprabha Maji is working in the Dept. of Gynae-oncology at Tata Medical Center, Kolkata as Clinical Research Fellow in Gynae Pathology from 15.05.18 to till date.

She reported cervical PAP smears under SyMec project. She single handedly worked in Fully Automated Tissue Microarray machine (Beecher ATA-27), have made tissue microarray blocks of both cervix as well as ovary. She prepared cell block from ascitic fluid of ovarian cases.

She is well oriented with the oncopathology laboratory in Tata medical center, has done grossing of specimens , fine needle aspiration cytology . Currently standarisng and doing Immunohistochemistry on the tissue microarray blocks.

She has been actively participating in Multidisciplinary Tumor Board Discussions, Seminar, Theory class Discussions and Journal Club. She has completed Good Clinical Practice training (GCP) at NOVARTIS, have biobank induction and orientation.

She has efficiently done paper writing, poster presentation, Data Analysis with application of SPSS and PRISM Graphpad.

From UKIERI grant she will undergo training in UK in Gateshead and New Castle University for Digital pathology, Sentinel lymph node –ultra staging and frozen section, CRS scoring

She is sincere, hardworking, enriched in communication, clinical and research skills. She has been working with a multidisciplinary team of clinicians, researchers, research nurses, data managers and social workers

I think with her previous experience in A.I.I.M.S, New Delhi as well as the experience of oncopathology in Tata Medical Centre she will be an asset in any pathology department .

Yours Sincerely,

Dr Asima Mukhopadhyay
