

Dear Members of the Fellowship Committee,

I am writing to express my strong support for the nomination of my PhD student, Dr. Ashmita Dey, for the Sun Pharma Science Foundation Research Fellowships -2024. I believe that Dr. Dey is an exemplary candidate whose work has had a profound impact on the field of pharmaceutical sciences, and she is highly deserving of this fellowship.

Dr Dey's research stands out for its innovative approach and practical significance in drug discovery, biomarker identification, bioinformatics. Her work has not only contributed to the academic understanding of bioinformatics but has also shown potential for real-world applications that could influence future pharmaceutical developments. For example, her development of Transcription factor druggability framework has provided new insights into cancer therapeutic strategies and has demonstrated clear superiority over traditional methods.

Dr. Dey has consistently demonstrated a collaborative spirit, working across disciplines to enhance the scope and impact of her research. She has been involved in interdisciplinary projects that merge computational and experimental approaches, making her contributions particularly valuable to the broader scientific community. Her ability to communicate complex ideas and work effectively with teams from different fields is a testament to her versatility and leadership skills. Beyond her research, Dr. Dey has shown a strong commitment to mentoring and outreach. She has taken an active role in guiding junior students, helping them navigate the challenges of research.

The Sun Pharma Science Foundation Research Fellowships 2024 is designed to recognize and support individuals who are poised to make significant contributions to the field of pharmaceutical sciences. Dr. Dey embodies this potential. The fellowship would provide her with the resources and recognition necessary to further her research and make even greater strides in her research career. Her work is not only academically rigorous but also aligned with the goals of the fellowship in promoting innovation and excellence in pharmaceutical research.

I wholeheartedly support the nomination of Dr. Ashmita Dey for the Sun Pharma Science Foundation Research Fellowships 2024. Her outstanding research, collaborative nature, and dedication to mentorship make her a worthy candidate who will undoubtedly continue to excel and contribute meaningfully to the field.

Thank you for your consideration of this nomination.

Sincerely,

Dr. Ujjwal Maulik,

Fellow IEEE, INAE, IAPR, AAIA, NASI

Professor and former Chair Department of Computer Science and Engineering

Jadavpur University

Kolkata - 700 032 India

Distinguished Member ACM

Humboldt Fellow, Germany

Senior Associate, ICTP, Italy.
