## RECOMMENDATION LETTER

### TO WHOMSOEVER IT MAY CONCERN

Dr. Namdev Dhas received his PhD from Institute of Pharmacy, Nirma University, Ahmedabad, Gujarat. He completed his M. Pharmacy in Pharmaceutics from North Maharashtra University, Maharashtra. His area of research includes material science and engineering, multimodal therapeutic platforms, inorganic nanocomposites for cancer therapy. The main focus is synthesized different metal-based nanoplateforms and how their properties will affect the efficiency of therapy and diagnosis. He is potential candidate as a researcher and academician as he has great influence on regional institutes and society and subsequently be increased in near future. Additionally, polymer based nanoparticles synthesis is a part of research domain. He has published 21 publications in the form of several research and review articles in international journals. He has published two of his article with 22.315 impact factor (Coordination Chemistry Reviews) and three articles in 9.776 impact factor (Journal of Controlled Release). He has published one of his research articles in 5.875 impact factor (International Journal of Pharmaceutics). He has strong background in handling several sophisticated instruments and animal handling too. He also applied for the research grant in SUPRA-SERB in June, 2021. He is also selected for post-doc position-based fellowship sponsored by CONICET Argentina. He is also trying to establish collaborations with leading institutes like IITs, ISERs and NIPERs for future research. He also received "Young Researcher Award-2020" organized by Institute of Scholars. He is also writing a book for Springer Nature.
