**Subject:** Ethical Clearance for the Submitted Project

Dear Members of the Sun Pharma Science Scholar Award Committee,

I hope this letter finds you well. I am writing to provide important information regarding the ethical clearance status of the project that I have submitted for consideration for the Sun Pharma Science Scholar Award.

I am pleased to inform you that the project titled “Design, Synthesis, and Biological evaluation of 1,2,4-Oxadiazole based Novel Non-Steroidal Derivatives for the Treatment of Prostate Cancer” has successfully obtained ethical clearance from the relevant ethics committee. The committee reviewed the project thoroughly and has deemed it compliant with all ethical guidelines and regulations. This clearance underscores our commitment to conducting research in an ethical and responsible manner, ensuring the well-being and rights of all involved parties.

I would like to highlight that the project submitted does not involve any animal work. As a result, no ethical clearance related to animal research was required. Our research approach prioritizes the use of alternative methods and models, which aligns with contemporary practices and ethical considerations.

The ethical clearance process serves as a testament to the dedication and rigor with which we approach our research endeavors. We recognize the significance of adhering to ethical standards to uphold the integrity and credibility of our work.

I am truly honored to have the opportunity to be considered for the Sun Pharma Science Scholar Award. The ethical clearance of the project further strengthens my commitment to contributing meaningfully to the field of science.

Thank you for your time and consideration. I look forward to the possibility of being recognized as a recipient of the Sun Pharma Science Scholar Award.

Sincerely,

Shubham Kumar
