**To,**

The Selection Committee

Sun Pharma Science Foundation

**Subject: Submission of Research Papers for Sun Pharma Research Fellowship 2024**

Dear Members of the Selection Committee,

I am writing to submit two research papers relevant to my ongoing research work, as part of my application for the Sun Pharma Research Fellowship 2024.

1. **A Descriptive Study of Sexual Dysfunction in Persons with Alcohol Dependence Syndrome:** This paper was presented at the World Psychiatry Association Regional Congress in Kolkata, held from April 14-16, 2023. The study explores the prevalence and characteristics of sexual dysfunction in individuals diagnosed with Alcohol Dependence Syndrome, shedding light on the significant impact this condition has on their quality of life.
2. **A Comparative Study of Various Substance Use Disorders and Sexual Dysfunction:** This paper was presented at the Delhi Psychiatry Society Conference in July 2023. The research compares the incidence and nature of sexual dysfunction across different substance use disorders, offering insights into how various substances differentially affect sexual health.

Both of these research papers are directly related to the area of study for which I am applying for the fellowship. They represent a significant part of my research efforts to understand and address sexual dysfunction among individuals with substance use disorders, an area that I believe is critical for improving patient care and outcomes.

I hope these contributions will demonstrate my commitment to advancing research in this field and my suitability for the fellowship.

Thank you for considering my application.

Yours sincerely,

**Dr. Vipul Janardan**
