Undertaking for Sun Pharma Science Foundation Research Award- Medical Sciences

This is to certify that that the research work under reference has not been given any award in the past. The work claimed for the award of fellowship is original and I have contributed significantly. I have been working in the field of Hematology-Oncology for past several years and the cumulative work over the years is presented for this award. This work has been possible through the research grants received from DST, DBT and ICMR. I have contributed as a Principal Investigator and team leader and contributed substantially to the research work and its translation into clinical practice.
