Subject: Certification of Research Work for Sun Pharma Science Scholar Award

Dear Committee Members,

I am writing to certify that the research work submitted for the Sun Pharma Science Scholar Award by Mr. Shubham Kumar, under my supervision, has indeed been conducted and carried out by the applicant himself.

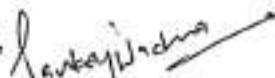

Mr. Shubham Kumar, a dedicated and diligent researcher, embarked on the project titled "Design, Synthesis & Biological Evaluation of 1,2,4-Oxadiazole based inhibitors for the treatment of prostate cancer" under my guidance. Throughout the course of this project, Mr. Kumar has exhibited a high level of commitment, intellectual rigor, and perseverance. He has demonstrated a profound understanding of the subject matter and displayed exceptional research skills, analytical thinking, and creativity.

I have closely monitored Mr. Kumar's progress from the initial conceptualization of the project to its successful completion. He meticulously designed the research methodology, carried out the synthesis of the 1,2,4-Oxadiazole based inhibitors, conducted detailed biological evaluations, and meticulously analyzed the obtained results. His dedication to producing meaningful and scientifically valuable results has been evident in his meticulous note-taking, laboratory practices, and attention to detail.

Furthermore, Mr. Kumar's project has resulted in significant findings that contribute to the potential treatment of prostate cancer. His work showcases a deep understanding of medicinal chemistry principles, and his innovative approach to the design of novel inhibitors demonstrates his prowess as a capable and aspiring researcher.

I can unequivocally confirm that the research work submitted by Mr. Shubham Kumar for the Sun Pharma Science Scholar Award is the outcome of his independent efforts, research acumen, and dedication. His contributions to this project have been invaluable, and I am confident in his abilities as a budding scientist.
