To Who It May Concern

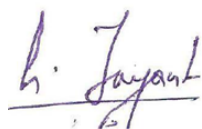

Nomination of Dr Shivakumar Gudi for the Sun Pharma Clinical Research Fellowship

I am writing this letter to recommend Dr Shivakumar Gudi for the clinical research fellowship grant offered by Sun Pharma Science Foundation. He joined the Department of Radiation oncology at Tata Memorial Hospital, Mumbai in 2012 as a Postgraduate MD trainee. He has shown dedication and passion in the clinical research in radiation oncology since the time I know him in 2012.

Dr Gudi has completed residency training at Tata Memorial Hospital and a Clinical fellowship at the Princess Margaret Cancer Centre, University of Toronto, Canada. He is currently affiliated to the Tata Memorial Hospital, Homi Bhabha National Institute, Mumbai. This is a large volume tertiary cancer care hospital and has been a robust clinical research platform for clinical researchers. He has collaborated with my colleagues and worked on various projects in the Head neck and GI radiation oncology. He works as an Assistant Professor in the Department of Radiation Oncology and actively involved in Clinical research as Principal investigator and Co Investigator in several ongoing research studies including randomised clinical trials. I am confident that he possesses the qualities needed for the clinical research fellowship offered by the Sun Pharma Science Foundation. The fellowship will allow him to conduct his clinical study protocol smoothly and complete it in a timely manner.

If you have any further queries on Dr Gudi, please feel free to contact me at godajayantsastri@gmail.com

Warm regards,

Dr Jayant Sastri Goda MD, DNB,MRes
Professor and Clinician Scientist
Radiation Oncology and In-charge Radiobiology Lab
ACTREC,Tata Memorial Centre
Kharghar,Navi Mumbai
