

Dir Sir/Madam,

Two works related to this project are currently under review by reputable journals. Due to the potential conflict of interest with other authors, the full details cannot be disclosed at this time. Therefore, I am providing only the titles of the manuscripts in this document below.

1. An Interpretable Framework for Identifying Disease-Modifying Drugs
2. A Network-Centric Strategy for Identifying Drug Targets

Sincerely

Dr. Ashmita Dey, DST INSPIRE Fellow, JSPS Fellow
Research Associate III
Indian Statistical Institute, Kolkata
