LETTER OF JUSTIFICATION

I am pleased to nominate **Dr. Rahul G. Ingle**, working as a **Professor at Datta Meghe College of Pharmacy** for the **Sun Pharma Science Foundation Research Fellowships** in recognition of his outstanding contributions to research and scientific excellence in the field of pharmaceutical and biopharmaceutical research. Dr. Ingle's research has had a significant impact on our understanding of monoclonal antibody formulations (biopharmaceuticals/biotechnological products), and his work has far-reaching implications for regulatory agencies have discussed virtually the **significance of monoclonal antibodies for COVID-19, future hidden pandemics, and other viral diseases**. Pandemic has reminded us that no country is immune to the threat posed by infectious diseases, ensuring prompt and affordable global access to **life-saving therapies like monoclonal antibodies**.

Dr. Ingle's research is characterized by its originality, rigor, and innovation. His work has been published in top-tier journals and conferences. His surprising findings that lyophilized monoclonal antibody formulations are more prone to degradation than their counterpart liquid formulations during various stresses conditions during manufacturing, post-manufacturing, shipping, handling, etc (Industrial trouble shooting)

He is an outstanding researcher, mentor, and colleague who consistently demonstrate a commitment to excellence and a willingness to collaborate with others. In recognition of his outstanding contributions to research and scientific excellence, I strongly recommend **Dr. Rahul G. Ingle** for the **Sun Pharma Science Foundation Research Fellowships**.

Dr. Anil M. Pethe
