To Whom It May Concern

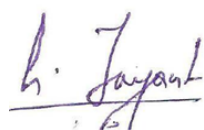

Nomination of Dr Samarpita Mohanty for the Sun Pharma Clinical Research Fellowship

I am writing this letter to recommend Dr Samarpita Mohanty for the clinical research fellowship grant offered by Sun Pharma Science Foundation. She joined the Department of Radiation oncology at Tata Memorial Hospital, Mumbai in 2015 as a Postgraduate MD trainee. She has shown dedication and passion in the clinical research in radiation oncology since the time I know her in 2015.

Dr Mohanty has completed residency training at Tata Memorial Hospital in 2018 and later worked as Senior Resident in the Department of Radiation Oncology. She is currently affiliated to the Advanced Centre for Treatment, Research and Education in Cancer (ACTREC), Tata Memorial Centre, Homi Bhabha National Institute, Mumbai. This is a large volume tertiary cancer care hospital and has been a robust clinical research platform for clinical researchers. She has collaborated with me and my colleagues and worked on various projects in the Head neck and hematolymphoid radiation oncology. She works as an Assistant Professor in the Department of Radiation Oncology and actively involved in Clinical research as Co Investigator in several ongoing research studies including randomised clinical trials. I am confident that she possesses the qualities needed for the clinical research fellowship offered by the Sun Pharma Science Foundation. The fellowship will allow her to conduct her clinical study protocol smoothly and complete it in a timely manner.

If you have any further queries on Dr Mohanty, please feel free to contact me at godajayantsastri@gmail.com

Warm regards,

Dr Jayant Sastri Goda MD, DNB, MRes
Professor and Clinician Scientist
Radiation Oncology and In-charge Radiobiology Lab
ACTREC, Tata Memorial Centre
Kharghar, Navi Mumbai
