

Hyderabad Eye Research Foundation

A signed statement by the applicant that the research work under reference has not been given any fellowship.

I hereby state that the research work under reference has not been given for any fellowship.

I am extremely grateful to all the clinicians at L V Prasad Eye Institute (Dr Subhadra Jalali, Dr Ramesh Kekunaya, Dr Nazimul Hussain, Dr Rajeev Reddy, Dr Raja Narayan and others), Fernandez (Dr Promod Reddy, Dr Nuzhat Hussain), Rainbow Children (Dr Nitasha Bagga, Dr Bhargavi Reddy) and Nilofur Hospitals (Prof Alimelu) who have helped me in undertaking these studies by recruiting patients, giving their clinical inputs time to time and taking the findings of these studies to the clinical translational level. Regular interactions with them really helped me to shape my research well.

In undertaking these studies, I was helped by a team of extremely brilliant research students and associates in my lab (Dr Avid Hussain and Dr Saritha Katta for studies on AMD; Dr Ganeshwer Musada, Dr Sonika Rathi, Mr Hameed Syed, Dr Satish B Pattnaik, Dr Tarandeep Kaur, Mr Saurabh Kumar, Ms Neha Sharma, Ms Suryadipali P Singh and Mr Habeeb Khan for studies on ROP; Dr Shahana Shahulhameed, Dr Sushma Vishwakarma and Ms Sarameela Sharma for studies on DR; Dr Pallavi Goel, Ms Prerna Kulsrestha and Ms Meenakshi on studies in Uveitis) in patient sample collection, performing the experiments, data analysis and writing manuscripts.

Besides Dr Subhabrata Chakrabarti and Dr Aatish Mahajan, my colleagues at LVPEI; collaborators from IITH (Dr SG Singh & Dr S Samavedi) and MAHE (Dr MA Joshi) worked with me for doing the data analysis, Nanosensor fabrication for diagnostic test and dual drug delivery and mass spectroscopy-based experiments respectively. All the collaborators helped in exploring new frontiers in my research, securing the grants and publishing the research outputs.

I was generously supported for my research by the Hyderabad Eye Research foundation, LVPEI in providing me the required infrastructure (patient samples, instrument facilities and space) for doing all my research work.

I would also like to duly acknowledge the funding support from DBT, DST, ICMR, Champaulimaud Foundation, Portugal and Santen Inc, Japan for my research work.

31-08-24.
DR. INDERJEET KAUR.
