

Statement Regarding Research Fellowship and Contributions

I hereby confirm that the research proposal titled “Targeting GDNF-GFR Signaling in Neurodegeneration: Exploring Therapeutic Pathways in Dopaminergic Neuron Health” has not been awarded any fellowship by any funding body.

Contribution: Prof. B. Senthilkumaran, Senior Professor at the School of Life Sciences, University of Hyderabad, has made significant contributions to this research. His mentorship and guidance were pivotal throughout the research period, and he generously provided access to his laboratory and instrumental facilities, which greatly facilitated the progress of this study.

Applicant Signature:

A handwritten signature in black ink, appearing to read 'Mamta', with a stylized flourish extending to the right.
