

**Subject: Nomination letter**

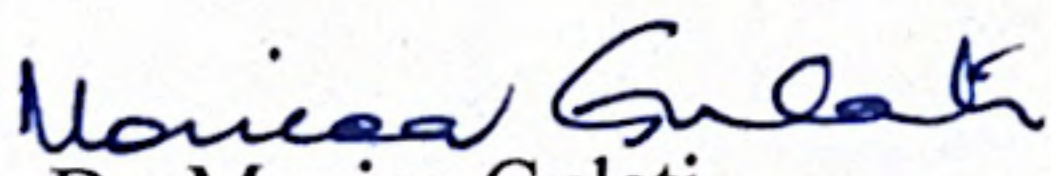

Dear Sponsorship Committee,

I strongly endorse Ms. Pooja Rani for the Sun Pharma Science Scholar Award. Her innovative work in self-assembled nanotechnology holds immense potential for advancing drug delivery. Her research aligns perfectly with the award's mission, promising transformative impact on healthcare.

Her breakthroughs in nanoscale self-assembly offer targeted drug delivery solutions in the management of rheumatoid arthritis that could revolutionise treatment efficacy. Your valuable sponsorship will provide both the financial assistance as well as motivation to her for further exploration of the un-touched area of self-assembled delivery systems particularly in the area of joint disorders.

Kindly consider sponsoring Ms. Pooja Rani for the Sun Pharma Science Scholar Award. Your support will help in the translation of research from laboratory-bench to patient bed-side.

Sincerely,

  
Dr. Monica Gulati

Professor and Executive Dean

School of Pharmaceutical Sciences,

Lovely Professional University, Punjab, India
