

Bio-Data:

Samir K. Maji, Ph.D.

Professor, Department of Biosciences and Bioengineering

Institute Chair Professor, IIT Bombay

Professor in-charge, Sunita Sanghi Centre for Aging and Neurodegeneration, IIT Bombay

Email: samirmaji@iitb.ac.in

Phone: +91-22-2576-7774 (office)

Fax: +91-22- 2572-3480

Webpage: <https://www.bio.iitb.ac.in/people/faculty/maji-sk/>

POSITIONS AND EMPLOYMENTS

Sep.2002-Jan.2005	Postdoctoral Fellow , Department of Neurology, Harvard Medical School and Center for Neurologic Diseases, Brigham and Women's Hospital, Boston, MA
Feb.2005-Feb.2006	Postdoctoral Fellow , Department of Neurology, David Geffen School of Medicine, University of California at Los Angeles (UCLA), CA
Feb.2006-Dec.2007	Research Associate , Structural Biology Laboratory, The Salk Institute for Biological Studies, 10010 N. Torrey Pines Rd, La Jolla, CA-92037.
Jan.2008-Dec.2008	Research Associate , Department of Physical Chemistry, ETH-Zurich, Wolfgang-Pauli-Str. 10, 8093 Zurich, Switzerland
Jan.2009-Sep.2014	Assistant Professor , Department of Bioscience and Bioengineering, IIT Bombay, Powai, Mumbai 400 076, India
May 2013-July2013	Visiting Fellow , Lab Fur Physikalische Chemie, ETH Zurich, Switzerland
Sep.2014-Nov.2018	Associate Professor , Department of Biosciences and Bioengineering, IIT Bombay, Powai, Mumbai 400076, India
Dec.2018- Present	Professor , Department of Biosciences and Bioengineering, IIT Bombay, Powai, Mumbai 400076, India
June 2022-Present:	Professor-In-Charge , Sunita Sanghi Centre for Aging and Neurodegenerative diseases (SCAN), (https://www.scan.iitb.ac.in), IIT Bombay, Powai, Mumbai 400076, India
Jan 2022- Present	Institute Chair Professor , IIT Bombay

EDUCATION

- 2003: Ph.D. in Biological Chemistry from the Department of Biological Chemistry, Indian Association for the Cultivation of Science (IACS), Jadavpur, Kolkata, India.
- 1998: M.Sc. in Chemistry (Major in Organic Chemistry) from the Department of Chemistry, University of Calcutta, Kolkata, India.
- 1996: B.Sc. In Chemistry (Organic, Inorganic and Physical Chemistry), University of Calcutta, Kolkata, India

AWARDS AND HONOURS

1. J C Bose fellowship, SERB, Department of Science and Technology, Government of India, 2023
2. Prof. S.C. Bhattacharya Award for Excellence in Pure Science, IIT Bombay, 2023
3. The SASTRA-Obaid Siddiqi Award for Life Sciences, 2023
4. Elected fellow of the Indian National Science Academy (INSA), 2023
5. Elected Fellow of Indian Academy of Sciences, Bangalore (IAS), 2022
6. Appointed as the Professor-in-charge of “Sunita Sanghi Centre for Aging and Neurodegeneration” (SCAN) at IIT Bombay, 2022
7. Appointed as the Institute Chair Professor, IIT Bombay, 2022
8. P.B Rama Rao Memorial Award, 2021
9. IIT Bombay Impactful Research Award, 2021
10. Elected Fellow of the Royal Society of Chemistry (FRSC), 2021
11. Elected Fellow of the Royal Society of Biology (FRSB), 2021
12. Elected Fellow of the National Academy of Sciences, India, (FNASc), 2021
13. IIT Bombay Excellence in Teaching Award, 2020
14. TATA Innovation fellowship, Department of Biotechnology, Government of India, 2020
15. NASI-Reliance Platinum Jubilee Award, The National Academy of Sciences, India, 2019
16. Appointed as Research Advisor, Nanyang Academy of Sciences, Singapore (NAAS), 2018
17. Selected as a Member of Royal Society of Chemistry (MRSC), 2018
18. IIT Bombay Research Publication Award, 2016, IIT Bombay
19. National Bioscience Award for Career Development, 2016, Department of Biotechnology, Ministry of Science and Technology, Government of India
20. Young researcher award, Lady Tata Memorial Trust, 2013
21. International fellowship from Swiss National Science Foundation, SNF, 2013
22. Young Investigator Travel Award by Protein Society and Finn World Travel award, 2010

23. DST-SERC Fast Track for Young Scientists, India, 2010, Department of Science and Technology. Govt. of India

MEMBERSHIP OF PROFESSIONAL SOCIETIES:

American Association for the Advancement of Science (AAAS)

The National Academy of Sciences, India

American Society for Biochemistry and Molecular Biology (ASBMB)

American Chemical Society (ACS)

Indian Biophysical Society (IBS)

Society for Biological Chemists (SBC), India

EDITORIAL BOARD MEMBERSHIPS

BBA Proteins and Proteomics

The Journal of Biological Chemistry (JBC)

American Chemical Society Bio & Med Chem Au,

Frontiers in Physics, Frontiers in Physiology and Frontiers in Molecular Biosciences

SCIENTIFIC ADVISORY POSITIONS

National and Institute level

2022-Present:	Committee member of DST INSPIRE fellowship in Biology
2022-Present:	Advisory Committee of UG and PG programs in the Faculty of Science, SVKM'S Mithibai College, Mumbai.
2021-Present:	Member of FWO Review College, The Research Foundation – Flanders, Belgium public research council, Brussels,
2020-Present:	Reviewing Panel, ISA, TNQ Awards for Best Paper
2018-Present:	DBT nominee of Biosafety Committee, TIFR, Mumbai
2021-Present:	IRCC advisory committee, IIT Bombay
2019-Present:	Faculty search committee chairperson, Department of Biosciences and Bioengineering, IIT Bombay
2019-Present:	Member of Disciplinary action committee, IIT Bombay
2018-Present:	Institute fellowship committee, IIT Bombay
2018-Present:	Warden of Hostel 18, IIT Bombay
2011-Present:	PhD. Admission coordinator, IIT Bombay

REVIEWER OF JOURNALS

Nature Chemical Biology, Nature Chemistry, Nature Communications, Biomacromolecules, ChemBioChem, Biochemistry, ACS Nano, Science Advance, Journal of the American Chemical Society (JACS), Journal of Biological Chemistry (JBC), Scientific Reports, ACS Chemical Biology, PloS One, ACS Chemical Neuroscience, Human Molecular Genetics, Journal of Physical Chemistry, Physical Chemistry Chemical Physics, Journal of Basic Microbiology, The FASEB Journal, Indian journal of Medical Research, Current Science

PhD THESIS EXAMINER

Calcutta University, Jadavpur University, Tata Institute of Fundamental Research (TIFR), Mumbai, National Center for Biological Sciences (NCBS), Bangalore, Indian Institute of Science (IISc) Bangalore, IIT Delhi, SP Pune University, NCCS-Pune, Indian Institute of Science Education and Research (IISER) Mohali, Indian Institute of Science Education and Research (IISER-Kolkata), Indian Institute of Chemical Biology (IICB), NISER-Bhubaneswar, Guru Nanak Dev University

REVIEWER OF INTERNATIONAL GRANT AGENCIES

Swiss National Science Foundation (SNF)
Alzheimer's Association, USA
Medical Research Council (MRC), London
European Science Foundation (ESF)
Flanders Research Foundation (FWO)
European Research Council (ERC)

REVIEWER OF NATIONAL GRANT AGENCIES

Department of Biotechnology, India
Department of Science and Technology (DST), India
Board of Research in Nuclear Sciences (BRNS), India
BIRAC, DBT
IMPRINT, DST

COURSES TAUGHT

Biological kinetics and Thermodynamics (BB/BS 409)
Biophysics Laboratory (BB450)
Molecular Biophysics (BS400)
Topics in Biotechnology II (BB/BS 602)
Biophysical Chemistry (BB617)
Protein Engineering (BB 648)

STUDENTS AND POSTDOCTORAL FELLOWS SUPERVISED:

PhD. students supervised:

1. Dr. Pradeep K Singh (2015, **IIT Bombay best thesis award**, currently a postdoctoral fellow at **The Rockefeller University**, New York, USA)
2. Dr. A. Anoop (2015, currently a postdoctoral fellow at the **University of Michigan**, Ann Arbor, USA)
3. Dr. Reeba S Jacob (2015, **Dr. Gargi Vishnoi Memorial Best Ph.D. Thesis Award**, currently a postdoctoral fellow at **Weizmann Institute of Science**, Rehovot, Israel.
4. Dr. Dhiman Ghosh (2016, **IIT Bombay best thesis award**, currently a postdoctoral fellow at **ETH Zurich**, Switzerland.
5. Dr. Shruti Sahay (2016, **IIT Bombay best thesis award**, currently a postdoctoral fellow at **University of California at Los Angeles**, UCLA)
6. Dr. Narendra Nath Jha (2017, **IIT Bombay best thesis award**, currently a postdoctoral fellow at **Columbia University**, USA)
7. Dr. Subhadeep Das (2017, **IIT Bombay-Monash Academy best thesis award**, CEO of start-up based on amyloid materials “**Convalesce**”, **San Francisco**, USA)
8. Dr. Srivastav Ranganathan (2018, Co-Guide, Currently a postdoctoral fellow at **Harvard University**, USA)
9. Dr. Ganesh M Mohite (2018, **IIT Bombay best thesis award**, currently a postdoctoral fellow at **Linköping University**, Sweden)
10. Rakesh Kumar (2019, **IIT Bombay best thesis award**, currently a postdoctoral fellow at **Karolinska Institute**, Sweden)
11. Dr. Surabhi Mehra (2020, currently a postdoctoral fellow at **University of Toronto**, Canada)
12. Dr. Ambuja Navalkar (2021, **Dr. Gargi Vishnoi Memorial Best Ph.D. Thesis Award**, currently a postdoctoral fellow at **St. Jude Children's Research Hospital**, Tennessee, USA)
13. Dr. Soumik Ray (2021, currently a postdoctoral fellow at **Technical University of Denmark (DTU)**, Denmark)
14. Dr. Debdeep Chatterjee (2022, currently a postdoctoral fellow at **DZNE, University of Gottingen**, Germany)
15. Dr. Komal Patel (**Programme manager** at SCAN, IIT Bombay)
16. Dr. Debalina Datta (currently a postdoctoral fellow at **University of California**, Santa Barbara)

17. Dr. Pradeep Kadu (currently a postdoctoral fellow at **University of Notre Dame**)
18. Dr. Laxmikant Gadhe (**Research Associate** at SCAN, IIT Bombay)
19. Dr. Manisha Poudyal (Institute Postdoctoral fellow)
20. Dr. Ajay Singh Sawner (Institute Postdoctoral fellow)

Ongoing PhD. Students

1. Ajoy Paul (2019-)
2. Semanti Mukherjee (2019-)
3. Nitisha Gahlot (2019-)
4. Riya Bera (2019-)
5. Jyoti Badhan (2021-)
6. Ranjit Shaw (2021-)
7. Shouvik Manna (2022-)
8. Arpita Bhattacharyya (2022-)
9. Anindya Modak (2023-)

Postdoctoral Fellow supervised:

1. Dr. Shinjinee Dasgupta (2022, currently Wellcome Trust/DBT India Alliance Early Career Fellow and Assistant Professor at Amity University, Noida, Delhi)
2. Dr. Namrata Singh (2021, currently Research Scientist at Glenmark Pharmaceuticals, Mumbai)
3. Dr. Nitu Singh (2020, currently DBT- Research Associate at Regional Centre for Biotechnology, Faridabad)
4. Dr. Sidharta Maiti (2020, currently Assistant Professor at Vellore Institute of Technology (VIT), Bhopal)
5. Dr. Satya Pandey (2020, currently Junior Scientist at Tata Medicals and Diagnostics)
6. Dr. Purna Chetri (2023)
7. Dr. Prasad Sulkshane (2023)

Ongoing Postdoctoral fellows

1. Dr. Arunima Sakunthala (2017)
2. Dr. Shalaka A. Masurkar (2022)
3. Dr. Manisha Poudyal (2023)
4. Dr. Ajay Singh Sawner (2024)

M.Phil students supervised:

Saikat Ghosh (2016)

M.Tech Thesis supervised:

1. Santosh Kumar P (2014),
2. Reena Gautam (2015),
3. Sneha Kirti (2017),
4. Pratap Singh Markam (2017),
5. Shankha Ghosh Dastidar (2017)
6. Rahul Pramjeet (2020)

M.Sc. Students supervised:

1. Amrita Singh (2010, co-guide; Guide Dr. Dulal Panda)
2. Vijay Kumar Gupta (2011)
3. Vasudha Kotia (2011)
4. Bhagwan Das Dhaked (2011, co-Guide, Prof. Ranjith Padinhateeri, BSBE, IITB)
5. Kushal Das (2012, co-guide Prof. Shamik Sen, BSBE, IITB)
6. Tarun K Rai (2012),
7. Sandeep Kumar (2013, co-guide, Prof. Shamik Sen)
8. Amresh Kumar (2013)
9. Kanchana Pandian (2013)
10. Danish Umar (2014)
11. Riddhi Deshmukh (2014, Co-Guide Prof. Santanu Ghosh)
12. Sanjay P Mondal (2014)
13. Saroj Rout (2015)
14. Arindam Ghosh (2016)
15. Nandan J (2016)
16. Kazi Atikur Rahman (2017)
17. Sugandha Narayan (2017)
18. Karan Sharma (2019)
19. Papiya Banik (2019)
20. Abhishek Shaw (2020)
21. Sagar Jaiker (2020)
22. Jyoti Badhan (2021)
23. Preeti Yadav (2021)
24. Shreya Chakraborty (2022)
25. Abhishek Goswami (2022)
26. Krishna Samatia (2023)
27. Abhimanyu Ray (2023)
28. Srishti Goswami (2024)
29. Supriya Singh (2024)

TECHNOLOGY DEVELOPMENT AND TRANSFER:

1. *Blood based detection of Parkinson's disease:* Development of blood-based assay to detect Parkinson's disease possibly for early diagnosis and/or confirmatory test for the disease. Based on this technology developed, an Indian patent (patent No. 202121018108) and US application (17/724,168) have been filed.
2. *Development of amyloid based hydrogel for tumor spheroid modelling in vitro: Drug evaluation and personalised medicine in Cancer.* This invention demonstrates the application of functional amyloid based hydrogel for 3D tumoroid model for drug testing, optimisation of drug dosage and patient derived-organoid. Indian patent (201921000523) as well as US application (17/263,278) have been filed for this technology.
3. *Amyloid based hydrogels for Stem cell differentiation.* Development of amyloid-derived hydrogel for differentiation of stem cells in to neuronal lineage. Some of such smart technologies have already been translated to industry. This smart hydrogel technology of stem cell differentiation has led to a start-up, Convalesce Inc., California, USA, by one of the former PhD students (Indian patent no. 20172107280, granted).

DETAILS OF PATENTS:

1. Alpha-Synuclein mutants and uses thereof
Inventors: Prof. Samir K Maji, Laxmikant Gadhe, Rakesh Kumar, Soumik Ray
Indian patent no: 202121018108
US Application no.- 17/724,168
2. Plasmonic triangular gold and silver nanoparticles as tools for machine-free nucleic acid amplification assays
Inventors: Prof. Samir K Maji, Pradeep Kadu, Satyaprakash Pandey, Prof.Murali Sastry, Prof. Rohit Srivastava
Indian patent no: 202021046398 (**Granted**)
3. Functional amyloid hydrogels and applications there of
Inventors: Prof. Samir K. Maji, Namrata Singh, Komal Patel, Reeba S. Jacob
Indian patent no.-201921000523(**Granted**)
PCT application no.-PCT/IB2020/050026
US Application no- 17/263,278
4. Hydrogel for neural tissue engineering (**Licensed to Convalesce Inc., San Francisco, USA**)
Inventors: Subhadeep Das, Prof. Samir K Maji, Dr. John S Forsythe, Dr. David Finkelstein
Indian patent no. 3712/MUM/2015 (**Granted**)

5. Amyloid mediated cell line transformation
Inventors: Prof. Samir K Maji, Saikat K Ghosh, Shinjinee Sengupta, Shimul Salot, Ambuja Navalkar, Subhadeep Das, Reeba S Jacob
Indian patent no. 201721014784 (**Granted**)
6. Hydrogel for targeted differentiation of stem cells towards neurons (**Licensed to Convalesce Inc., San Francisco, USA**)
Inventors: Subhadeep Das, Prof. Samir K Maji
Indian patent no. 20172107280 (**Granted**)
7. p53 amyloid-binding composition, method, and kit thereof
Investors: Prof. Samir K Maji, Ajoy Paul, Debalina Dutta, Shinjinee Sengupta,
Indian patent no. 202421031922

INVITED TALKS

1. “Amyloids for tissue engineering applications” invited talk at the 12th Asian Network for Natural and Unnatural Materials (Annum XII) on July 20th – 22nd 2024, organized by the Department of Chemistry, IIT Bombay, Mumbai, India.
2. Delivered a talk at the “INDO-UK Biosensor Workshop 2024”, May 27th, 2024, organised by IIT Bombay.
3. “Prion-like p53 amyloids in cancer pathogenesis” invited talk at the workshop “Systems Biology Approaches to Understand Complex Cellular Dynamics” (SBAUCCD-2024), held on February 1st-2nd, 2024, organized by IIT Bombay.
4. “Liquid-liquid phase separation of proteins”, invited talk at a workshop on “Polymer physics principles in biology”, January 11th and 12th, 2024, organised by IIT Bombay.
5. “Biomolecular condensates as versatile functional storage depot” invited talk on “LLPS workshop IIT Madras”, December 16th-17th, 2023, organised by IIT Madras.
6. “The physical cues behind liquid-liquid phase separation of proteins and their physiological implications” invited talk at “Symposium on Soft and Biological Materials: Experiments and Theory”, December 14th, 2023, organised by IIT Bombay.
7. “Liquid-Liquid phase separation of proteins in diseases and native functions” invited talk at Chemistry and Biochemistry Seminar, April 14th 2023 at University of Southern Mississippi, Hattiesburg.
8. “Liquid-liquid Phase Separation of Proteins in Diseases and Native Functions” invited talk on “MBU@50 Symposium”, January 23rd-25th, 2023, organised by Indian Institute of Science, Bangalore, India.
9. Chaired interactive sessions at BIO-Remedi (Biomaterials, Regenerative Medicine and Devices), December 17th, 2022, organised by the IIT Guwahati.

10. Invited talk at 91 Annual Meeting of Society of Biological Chemists (India), December 8th-11th 2022, organised by the Biswa Bangla Convention Centre, Kolkata.
11. Delivered a talk at the International Conference on Smart Materials for Sustainable Technology (SMST-2022), October 13th-16th 2022, organized by IIT Bombay, Mumbai, India.
12. Delivered a talk at the 33rd Mid-Year Meeting of the Indian Academy of Sciences, July 8th-9th 2022, held at the Indian Institute of Science, Bengaluru.
13. Invited talk at the Asia-Pacific-Protein-Association and Asian-Biophysics-Association meeting (APA-ABBA) of 14th International Congress of Cell Biology (ICCB) on Protein phase separation, June 22-26th 2022 held at Tapei.
14. Invited talk on Biomaterials at “Advances in Basic and translational research in Biology (ABTRiB)”, March 12th 2022 organised by the Department of Molecular Biology and Biotechnology, Tezpur University.
15. Seminar talk at Clark University, USA, February 4th 2022.
16. “Prion-like p53 amyloids in cancer pathogenesis”, PB Rama Rao Memorial Award lecture, December 17th 2021 at 19th SBCI meeting organised by Society for Biological Chemists.
17. “Amyloids as functional biomaterial” at International conference on Advanced Nanomaterials and Nanotechnology (ICANN 2021)”, December 15th 2021 organised by IIT Guwahati.
18. “Engineered amyloid as functional Bio-materials” Complex fluid (CompFlu 2021), December 13th-15th 2021, organised by Indian Society of Rheology.
19. “Amyloid as functional Biomaterials”, (Invited guest lecture), August 28th 2021, organised by Department of Chemistry, BITS Pilani, Goa.
20. “Amyloids as novel biomaterials” at International conference on Advanced Materials for Better Tomorrow (AMBT 2021), July 13-17, 2021(Virtual talk) organised by IIT BHU and SIRMB.
21. “ Liquid-liquid phase separation: implications in biology and disease”, Meeting on phase separating systems, April 6th-9th 2021, organised by IISER Pune and Journal of Biosciences, Indian Academy of Science, Bangalore.
22. “p53 amyloid formation associated with cancer” at The ZOOMinar series on “Molecular Basis of Proteinopathies”, March 13, 2021.
23. “ α -synuclein aggregation associated with Parkinson’s disease: Liquid-liquid phase separation and amyloid fibril polymorphism” at BSBE Colloquium (online seminar series) organised by Biological Sciences and Bioengineering Department, IIT Kanpur, September 16, 2020

24. "Amyloid as novel biomaterials for tissue engineering and nano technological applications" at the International Conference on Smart Materials for Sustainable Technology (SMST-2020) held at Bogmallo Beach Resort, Goa, February 22 -25, 2020
25. "Role of p53 amyloid formation in cancer: Is Cancer a class of prion-like diseases?" at 10th Annual Meeting of PSI & International Conference on Proteomics for Cell Biology and Molecular Medicine, held at NCCS, Pune, December 12-14, 2018
26. "Altered site-specific dynamics of soluble and membrane bound α -Synuclein by its familial mutations" at National Workshop on Fluorescence and Raman Spectroscopy held at IIT Guwahati, Dec 17-21, 2017
27. "Role of p53 amyloid formation in Cancer" at the International Conference on Intrinsically Disordered Proteins (IDP 2017), held at IISER Mohali Dec 9-12, 2017
28. "Understanding the mechanism of α -Synuclein amyloid formation: therapeutic approach against Parkinson's disease" at The 23rd INPEC meeting: Protein structure, function and Engineering, Bose Institute, Kolkata, November 9-11, 2017
29. "Amyloids as cell adhesive matrix" at 11th International Symposium on Cell Surface Macromolecules, Department of Biological Sciences, IISER Mohali, February 24-28, 2017
30. "Amyloids as functional biomaterials" at International Conference on Advances in Biological Systems and Materials Science in NanoWorld (ABSMSNW), IIT (BHU)-Varanasi, February 19-22,2017
31. "Amyloids as functional biomaterials" at Recent Advances in Molecular Chemistry and its Application, School of Biotechnology and Bioinformatics, D. Y. Patil University, Navi Mumbai, TIFR, on October 1, 201
32. "Amyloids fibrils associated with diseases and functional materials" at National Workshop on Scanning Probe Microscopy Techniques, NCL Pune, August 11-13,2016
33. "Local and global structural transition of α -synuclein in amyloid formation" at International Society on Optics within Life Sciences (OWLS) meeting 2016, TIFR, on March 16-19, 2016
34. "Novel Tissue engineering scaffolds based on amyloid hydrogels" at Polymer-Solvent Complexes and Intercalates (POLYSOLVAT-11), IACS, Kolkata, on January 27-30, 2016 (Invited speaker).
35. "Amyloid fibrils" at NMR Meets Biology: An Interaction Week, Kerala, on January 14-19, 2016
36. American Society for Cell Biology Meeting Dec 12-16, 2015 (Poster presentation).
37. "Amyloids as Biomaterials", International Conference on Electron Microscopy and XXXVI Annual Meeting of the Electron Microscope Society of India (EMSI) on July 9, 2015

38. "Amyloids: Diseases, functions and applications", Kaleidoscope, Goa, India: A Discussion Meeting in Chemistry, on July 2-5 2015
39. "α-synuclein aggregation associated with Parkinson's disease" at TIFR Hyderabad May 27, 2015
40. "Amyloids as novel biomaterials" at Departmental one-day symposium entitled "Challenges for Translational Research". March 21, 2015
41. "Understanding the mechanism of Alpha-synuclein aggregation associated with Parkinson's disease" at National Symposium on Biophysics & Golden Jubilee Meeting of Indian Biophysical Society, Centre for Interdisciplinary Research in Basic Sciences, Jamia Millia Islamia, India, February 14-17, 2015
42. "Amyloids for biomaterial applications" at 17th CRSI National Symposium in Chemistry at NCL Pune Feb 6-8, 2015
43. "Alpha-synuclein aggregation associated with Parkinson's disease," Society for Biological Chemists of India Tata Institute of Fundamental Research, Mumbai 11 Oct 2014
44. "Amyloid fibrils in Nanobiotechnology," IMNANO 2nd in-house symposium of Centre for Research in Nanotechnology and Science (CRNTS) IIT Bombay 5th October 2014
45. "Amyloids as biomaterials," Indo-German Symposium on Bioinspired Chemistry Indian Institute of Science, Bangalore 10 September 2014
46. "Probing protein aggregation using computer simulations," Accelerating Biology 2014: Computing Life C-DAC, Pune 18 Feb 2014
47. "Amyloids: Functions, neurodegenerative diseases," Inauguration and Mini-Symposium On NMR & Related Topics IIT Bombay 11 Feb 2014
48. "Understanding the mechanism of alpha-synuclein aggregation and its modulation: therapeutic approach against PD," 32 Indian Academy of Neurosciences Annual Meeting National Institute of Mental Health and Neuro Sciences (NIMHANS), Bengaluru 1st January 2014
49. "Amyloids: Diseases, functions, and applications." April 2011, TIFR, DCS Talk
50. "Amyloids: Functions, neurodegenerative diseases, and nanotechnology", 1st Biophysics-Paschim meet, TIFR Mumbai
51. International Conference on Nano Science and Technology (ICONSAT-2010), Feb. 17-20, 2010, IIT Bombay, Powai, India
52. Emerging Concepts in Biotechnology (ECB-2009) December 11-12, 2009, National Institute of Technology, Calicut, Kerala, India

53. Young Explorers in Indian Biology (YEIB), Sep 2009, Tata Institute of Fundamental Research, Mumbai, India
54. International Symposium on Emerging areas in Biosciences and bioengineering” (ISEABB), Feb 2009, IIT Bombay, Mumbai, India

FUNDING

As Principal Investigator:

1. Understanding and modulating the alpha-synuclein aggregation in Parkinson's disease, 2010-2013, **Rs. 14.6 lakhs**; Department of Science and Technology (DST), India, 1st Track.
2. Sequence-dependent oligomerisation of α -synuclein: Relevance to Parkinson's disease, 2010-2013, **Rs. 22.6 lakhs**; Council of Scientific and Industrial Research (CSIR), India.
3. Oligomerization of α -synuclein in Parkinson's Disease, 2011-2014, **Rs. 53.1 lakhs**; Department of Biotechnology (DBT)-Basic Science.
4. Understanding the formation of neurotoxic α -synuclein oligomers associated with PD, 2011-2015, **Rs. 85.2 lakhs**; Department of Biotechnology (DBT)-Neuroscience task force.
5. Designing peptide inhibitors against α -synuclein aggregation: Therapeutic approach for Parkinson, 2012-2015, **Rs. 34 lakhs**; Indian Council of Medical Research (ICMR), India.
6. Development of novel amyloid-based material for drug delivery, 2015, **Rs. 15 lakhs**; Wadhwani Research Center for Bioengineering (WRCB), IITB.
7. Hydrogel derived from non-toxic amyloid nanofibrils for tissue engineering applications, 2015-2018, **Rs. 85.5 lakhs**; Department of Biotechnology (DBT)-Nanotechnology Task Force.
8. p53 Amyloid: A possible cause of p53 loss of function in Cancer – Young researcher award, 2013-2018, **Rs.40 lakhs**; Lady Tata Memorial Trust (LTMT).
9. Study of the molecular basis of neurotoxicity induced by PD associated α -Synuclein mutations using neuronal cell line, 2015-2018, **Rs.15 lakhs**; Council of Scientific and Industrial Research (CSIR), India.
10. p53 amyloid formation leading to its loss of tumour suppressor functions in cancer, 2015-2018, **Rs. 27.9 lakhs**; Department of Science and Technology (DST), India.
11. Development of novel amyloid-based hydrogels for sustained release of insulin, 2018-2019, **Rs. 15 lakhs**; Wadhwani Research Center for Bioengineering (WRCB), IIT Bombay.

12. Functional amyloid derived Hydrogels as a scaffold for three-dimensional in vitro tumor model for evaluating anti-cancer therapeutics, 2018-2019, **Rs. 35 lakhs**; Biotechnology Industry Research Assistance Council, Department of Biotechnology, India (DBT-BIRAC).
13. Development of a biochemical assay for diagnosis of Parkinson's disease from blood in the pre-motor stage. 2018-2020, **Rs. 12 lakhs**; TATA Centre IIT Bombay seed grant.
14. Strain property of α -Synuclein fibrils: Implications in synucleopathies, 2018-2021, **Rs. 71.2 lakhs**; Department of Biotechnology-Basic Sciences.
15. Altered site specific dynamics of membrane bound α -Synuclein by its familial mutations, 2018-2023, **Rs. 5 lakhs**; IRCC sponsored project.
16. Hydrogels from amyloid nanofibrils for neural tissue engineering, 2018-2021, **Rs. 15 lakhs**; Department of Biotechnology, National Bioscience award.
17. Consequences of wild type p53 amyloid formation in cancer and p53 disaggregation as a potential therapeutic approach, 2020-2023, **Rs. 52.5 lakhs**, Department of Science and Technology, Government of India.
18. Establishing stem cell differentiation to dopaminergic neurons using functional amyloid hydrogel, 2020-2023, **Rs. 24 lakhs**; DBT Tata Innovation Fellowship Grant.
19. Liquid-liquid phase separation of α -Synuclein leading to amyloid fibril formation: Implications in Parkinson's disease pathology, 2022-2025, **Rs. 1.7 Cr**; Scientific and Useful Profound Research Advancement (SUPRA), Department of Science and Technology (DST), Government of India.
20. Sustained release of bioactive insulin and other drugs using amyloid hydrogel *in vivo* for various diseases, 2022-2024, **Rs.45 lakhs**; Wadhvani Research Center for Bioengineering (WRCB), IITB.
21. A novel approach in finding the potential biomarker for detecting Parkinson's disease using Protein Misfolding cyclic amplification technique, 2022-2025, **Rs. 90 lakhs**, Department of Biotechnology (DBT).

Funding

As Co-Investigator:

1. Effects of tau glycation and phosphorylation on stability and dynamics of microtubules and on differentiation of neuronal cells: Therapeutic implications for neuropathies, 011-2014, **Rs.52 lakhs**; Department of Biotechnology (DBT)-Neuroscience Task force.
2. Mechanobiological regulation of embryonic stem cell self-renewal and differentiation, **Rs.53 lakhs**; Department of Biotechnology (DBT).
3. Cellular programming using Bioactive scaffolds for immunotherapy, **Rs.53 lakhs**; Department of Biotechnology (DBT).

4. Probing the bidirectional cross talk between matrix metalloproteinases (MMPs) and the actomyosin cytoskeleton, and its relevance to cancer, **Rs.53 lakhs**; Department of Biotechnology (DBT).
5. Interplay of spatiotemporal synaptic drive and spike propagation in shaping electrical activity of urinary bladder smooth muscle: A computational investigation, **Rs.35 lakhs**; Department of Biotechnology (DBT).
