Statement from the candidate

It is to state that the research work highlighted as claim for the SUN PHARMA Research Award-2021 in Pharmaceutical Sciences, has not been given any award in the past. However, probably in broad sense, synthesis of natural products and new chemical entities were considered in part during the selection of CDRI drug research award in chemical sciences and NASI-RELIANCE Industries Platinum Jubilee Award in Physical Sciences. The work presented is carried out by research fellows under my supervision. It is original and the work published in various prestigious international and national journals and patents is achieved through active effort of my Ph. D. students and colleagues. In the case of biology screening in some project, I have taken support from different research groups from industry and academia. Details of collaborating scientists and institute are available in the published papers/patent. Some of the work is sponsored work, while, some work is carried out under net-working program of CSIR. The knowledge gained and skills attained have been effectively utilized by our research group for the success of the work assigned.

 30/10/2021

Ch. Raji Reddy
 Senior Principal Scientist
