To the committee members

Sun Pharma Science Foundation

Dear Committee members,

This is to certify that the research project titled "*Targeting GPCR-Signaling in Macrophages to Combat Obesity and Type 2 Diabetes*" submitted by me for the fellowship program has undergone ethical review and has received ethical clearance from the Institutional Ethics Committee (IEC) of the Indian Institute of Technology Kanpur (IITK).

The project has been evaluated per the established ethical guidelines, and it has been determined that the research procedures comply with the ethical standards required for conducting research involving animal models.

Thank you.

Sincerely,

Seema Kuldeep

Graduate student

Biological Science and Bioengineering (BSBE)

IIT Kanpur
