

I am writing to enthusiastically recommend Nazeer Hasan for the Sun Pharma Research Award. As Mr. Hasan at Nanomedicine Laboratory at Department of Pharmaceutics, School of Pharmaceutical Education and Research (SPER), Jamia Hamdard has consistently demonstrated exceptional research abilities and has made significant contributions to the field.

I have had the pleasure of closely working with Mr. Nazeer for last four years. During this time, I have been impressed by his/her dedication, expertise, and passion for research. He possesses a unique ability to identify innovative research questions and develop creative solutions to complex problems. Additionally, He has a very good academic as well as research record. During his PhD, he was ranked among the top students in his class and published good scientific papers in reputed journals. His success can be attributed to his shrewd acumen and resolution to achieve goals. His strong grades and research profile reflects his hard work and intellect. His diligence, positive attitude and responsibility have enabled him to accomplish all the tasks assigned to him within the stipulated time period. He has commendable problem-solving skills coupled with good analytical ability. He possesses the aptitude, merit and tenacity that are essentially desirous of a student. His laboratory work is very well disciplined, systematic and strongly compliment his prospects as a researcher.

One aspect that sets Mr. Hasan apart is his outstanding track record of research achievements. He has published around 30 Articles papers in reputable journals, presenting novel findings and advancing our understanding of drug delivery systems. Additionally, He have filed 3 patents in last three years which shows his passion towards research. He has been awarded Malvern scientific award 2022 for best publication. His work has received recognition and acclaim from the research community, with several of his publications being widely cited by peers. In addition to Mr. Hasan's exemplary research accomplishments, he has also demonstrated exceptional leadership and collaboration skills. He has actively collaborated with fellow researchers, fostering a spirit of teamwork and knowledge sharing. He has also been instrumental in mentoring and guiding junior researchers, helping them develop their skills and achieve their research goals. Furthermore, he is deeply committed to applying his research findings to real-world applications and making a positive impact on society. He actively seeks opportunities to translate research into practical solutions and has shown an unwavering dedication to improving the lives of people through his work.

Considering Nazeer's exceptional research achievements, leadership abilities, and commitment to advancing the field, I wholeheartedly believe that he is an ideal candidate for the Sun Pharma Research Award. His work embodies the spirit of innovation and excellence that the award seeks to recognize and honour. I highly recommend Mr. Nazeer Hasan for the Sun Pharma Research Award, and I am confident that he will continue to make significant contributions to the field of Pharmaceutical Research. If you require any further information or have any questions, please do not hesitate to contact me.
