TO WHOMSOEVER IT MAY CONCERN

Mr. Rakesh Kumar Sahoo has the ability to think and work independently as well as in a team. He joined the Master of Pharmacy program in 2017 at Department of Pharmacy, Central University of Rajasthan and completed the theory courses of first and second semesters. He executed research studies on a project entitled "*PEGylated Dendrimer Mediated Delivery of Bortezomib: Drug Conjugation, Encapsulation and Solubilization*" during the 2nd year of master's program under my direct supervision. He got enrolled in the Ph.D. program of the university again under my direct supervision on 07th August, 2019. In his Ph.D., he is currently working on the project entitled "*Peptide Modified Dendrimer-based Drug Delivery Formulations for the Effective Management of Brain Tumor*". His research attitude and hard work was acknowledged by his recent publications in reputed international journals of high impact (total impact factor 58.9). He has published 8 research articles and 6 review articles in reputed journals with 6 book chapters to his name. He is very determined towards the assigned tasks. He was awarded with gold medal for securing 1st position in his M.Pharm. (Pharmaceutics).

Rakesh is keen to excel his career in research and to contribute to the welfare of society and mankind. I am fully convinced that Mr. Rakesh can lead the high-end and focused research and I strongly support his candidature for the Sun Pharma Science Scholar Awards 2023 for Young Scientists.

With thanks and regards

Umesh Gupta
