Sub: Application for the "**The Sun Pharma Science Foundation Science Scholar Awards-2021**"- Scholarships for Young Scientists

Dear Dr. Jalali,

I would like to nominate Ms. Urbi Roy for the "Ranbaxy Science Scholars-2021"- for Young Scientists for her work entitled "Understanding the Molecular Mechanism Behind Fragility of *BCL11B* in T-cell Acute Lymphoblastic Leukemia". Urbi is working in my laboratory ever since she has joined as a Ph.D. student in the Department of Biochemistry, Indian Institute of Science. Her academic records, presentation and communication skills and dedication towards her research work makes her a strong candidate for this award. As her PhD supervisor, I would therefore like to nominate her application for the above-mentioned scholarship.

Thanking you,

Yours faithfully

Sathees Raghavan
