Subject: Certification of work done by Dr. Mathan Kumar Ramasubbu.

This is to certify that the work incorporated in this clinical trial entitled, “A group sequential, response adaptive randomized double-blinded clinical trial to evaluate the safety and efficacy of an add-on combination of olanzapine and pregabalin for the prevention of chemotherapy-induced nausea and vomiting in patients receiving highly emetogenic chemotherapeutic regimen in a daycare setting.” has been carried out by Dr. Mathan Kumar Ramasubbu himself under my direct supervision and guidance.

The work done by him will help economically backward cancer patients in the relatively better management of chemotherapy-induced nausea and vomiting without the use of expensive Nk-1 antagonists like aprepitant.

Thank you

Bhubaneswar
