**Subject:** Voluntary Declaration of Future Commitment

Dear Members of the Sun Pharma Science Scholar Award Committee,

I hope this letter finds you well. I am writing to provide a voluntary declaration regarding my commitment to contribute to the field of science through work in academic or research-based organizations following the completion of my studies.

I, Shubham Kumar, solemnly declare that upon the successful completion of my studies, I am fully committed to working in academic or research-based organizations for a minimum period of two years. This commitment reflects my dedication to the advancement of scientific knowledge, innovation, and the betterment of society at large.

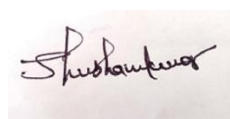

I am passionate about making meaningful contributions to the scientific community and am eager to apply the knowledge and skills gained during my studies to practical research endeavors. I firmly believe that working within academic or research-based settings will allow me to contribute to ongoing research initiatives, collaborate with fellow researchers, and engage in endeavors that promote the growth of scientific understanding.

I am grateful for the opportunity to be considered for the Sun Pharma Science Scholar Award, and I view this award as not only a recognition of my current achievements but also as a stepping stone toward my future goals. I am committed to upholding the values of integrity, dedication, and excellence in my academic and professional pursuits.

Thank you for your attention to this matter. I look forward to the possibility of being a part of the Sun Pharma Science Scholar community and contributing positively to the realm of science.

Sincerely,

Shubham Kumar
