**Lovely School of  
Pharmaceutical Sciences**

**To The Sun Pharma Science Foundation Science Scholar Awards**

**Subject: Recommendation Letter**

It gives me immense pleasure to recommend Miss Rubiya Khursheed, who has applied Sun Pharma Science Foundation Science Scholar Award. Miss Rubiya Khursheed, PhD scholar at School of Pharmaceutical Sciences, Lovely Professional University, India holds her Masters of Pharmacy in Pharmaceutics. She has carried out her PhD thesis on development of solid self-nanoemulsifying drug delivery system loaded with curcumin and quercetin using probiotics and mushroom polysaccharides for effective treatment of diabetes mellitus. During her course of PhD, she has published 37 articles in highly reputed journals with cumulative impact factor of 104 as an outcome of her PhD thesis. In the year 2019, she got an opportunity to present her research work at international level at AAPS PharmSci 360, San Antonio, USA. Owing to her PhD work, she has one national and one international patent (PCT) in her credit. She has also received best paper award at many conferences held at national level. During the period of my association with her I was able to gauge her innate abilities to understand the basic concepts and apply them to overcome the problems associated with it.

Her knowledge of the fundamentals, analytical ability and effortless assimilation of concepts accompanied by her assiduous efforts are commendable. Besides being diligent in her academics, she has shown impeccable command over other subjects. She is a sincere, diligent and self-reliant person having pleasing demeanour.

Her diligence and pragmatic analytical skills represent her competency towards research. Based on my above views, I strongly recommend her to be considered as potential candidate for Sun Pharma Science Foundation Science Scholar Award. I wish her all the success in her pursuits of academic and research advancement and career.

Sincerely,

*Monica Gulati*

Professor (Dr.) Monica Gulati

Senior Dean

Lovely Faculty of Applied Medical Sciences,

Lovely Professional University, Punjab, India
