Letter from the supervisor

To Whomever it may concern!

Hereby, I'm certifying that the research work entitled "*Potential biomarkers uncovered by bioinformatics analysis in sotorasib resistant-pancreatic ductal adenocarcinoma*" was solely performed and completed by my doctoral scholar **Mr. Prasanna Srinivasan Ramalingam**. In this work, he identified the crucial biomarkers involved in the Sotorasib (FDA-approved) resistance in KRAS G12C mutated pancreatic ductal adenocarcinoma cells by employing various bioinformatics approaches. This work was recently published in Frontiers in Medicine in June 2023. I strongly recommend that he is a suitable candidate for this award and I certify that he completed the research work. If you further need any information regarding him, kindly contact me by Email: siva_kumar.a@vit.ac.in
