Sun Pharma Science Foundation,

It is my great pleasure that I am writing to you today to nominate, **Dr. Sandeep Kumar Gupta** (Assistant Professor) for the **Sun Pharma Science Foundation Clinical Research Fellowship 2023**. I believe that Dr. Sandeep Kumar Gupta is the best choice for this fellowship because he is very dynamic and research oriented. Dr. Gupta works with me in the department of PMR, KGMU Lucknow, and I strongly believe that he is a prime candidate for this fellowship because his relentless contributions to the department, organization and the community.

I have closely observed his clinical work in this department and it has been observed that Dr. Gupta has been very polite, considerate and prompt in providing services to the patients. He has excellent clinical research, operative and communication skill. He is flexible and always willing to learn/work on any projects that are assigned to him. In addition he is extremely organized and reliable.

I strongly endorse Dr. Gupta for nomination of the Sun Pharma Science Foundation Clinical Research Fellowship 2023. I am sure that he will prove his clinical research ability.

I wish him great success in future

Sincerely

Anil
