No. WRTC/Director/ 22 /2024

Date: 19/01/2024

**To Whom So Ever It May Concern**

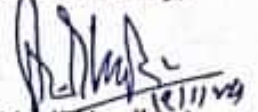

Dr. Yogesh T. Thorat is known to me since his internship at Wildlife Research & Training Centre (WRTC), Nagpur, as a part of his Bachelor of Veterinary Science and Animal Husbandry (B.V.Sc & A.H.) studies. He completed a thirty-day internship under my guidance, focussing on wildlife health, management, forensics, research, and extension. He received a top grade during his internship stay at WRTC, Nagpur.

Dr. Yogesh has a solid academic background and is a hardworking and sincere student. He consistently demonstrated strong dedication to the work allotted to him at WRTC. He has a particular interest in investigating wildlife diseases and has shown steady progress in mastering the skills of molecular diagnosis. During his time here at WRTC, he showcased a keen interest in the interconnectedness of health across various ecosystems and has a passion for interdisciplinary collaboration and the integration of veterinary, environmental, and human health.

Dr. Yogesh will always be remembered for his strong work ethics, attention to detail, and ability to collaborate effectively with fellow researchers, apart from his unique scientific temperament, curiosity, and robust analytical skills.

He will be a great asset to any institute he opts to pursue his higher studies. My best wishes to him for his future endeavours.

Yours Sincerely,

  
(Shirish Upadhye)
