

TO WHOM IT MAY CONCERN

This is to state that I have not received any grant for my research work from any institution or society. This is the first extramural fellowship grant that I have applied for and do wish that it shall be supported. Till date I have received an intramural funding from AIIMS Kalyani for my research project titled as **“Comparative study between single dose of intravenous amisulpride versus ondansetron in patients posted for craniotomy: A randomised, double blind, non-inferiority trial”**.

I have not received or applied any grant for the research work in postsurgical meningitis. I have only applied to **Sun Pharma Research Foundation** till date.
