

29th Aug 2024,
Hyderabad.

TO WHOM IT MAY CONCERN

This is to state that the research work titled “ Nano transformable Hydrogel for the treatment of metastatic cancers” has not been given any fellowship in the past. This work was performed in Dr. Rengan’s lab at IIT Hyderabad. Dr. Rengan served as the corresponding author in the publications arising out of this work (ACS Applied Materials and Interfaces). This technology has been granted a US patent on March 26, 2024. The inventors list includes two PhD research scholars (guided by Dr. AKR). Dr. Rengan’s lab has been involved in the development of several nanoformulations for anti-cancer and anti-microbial drug delivery. All these research work have been published in reputed peer reviewed international journals. Several of these technologies have also been patented.

Thanking you,
Best regards,

R. Aravind.
