Sub: Sun Pharma Science Foundation Research Award Recommendation Letter

Dear Sir,

It is my pleasure to recommend Professor Sujoy Ghosh an Endocrinologist of Institute of Post Graduate Medical Education & Research (IPGME&R, SSKM Hospital Kolkata). Prof Ghosh is my colleague and known to me for the past 10 years. He was previously working as a Clinical Teacher & Clinical Research Fellow at University Hospital of Ayr, Scotland, U.K. He is actively involved in the teaching, training and mentoring of post-doctoral fellows, post-graduate students and paramedical and support staff involved in the diabetes care. He also officiates as Guide and co-guide of dissertations of post-doctoral, post-graduate and PhD students. Dr Ghosh has authored six books and is a member of the International Advisory Board of Davidson's Principles & Practice of internal Medicine (endocrinology & diabetes section). This year, Prof Sujoy Ghosh was selected for the AACE Outstanding International Clinician Award 2021, one of the most coveted honors in the medical world.

Dr. Ghosh has also set up a state of the art clinical endocrinology lab, a molecular biology lab, basic science lab, including facilities for primary and secondary cell culture which now caters to the research needs of many PhD students and post-doctoral fellows to pursue their research endeavors in endocrinology.

Dr. Ghosh has also set up a population lab to cater to the needs of epidemiologists and public health experts. Currently 42 trained personnel are working in 4 groups in 27 districts of West Bengal. The team has already managed to cover a population of 1,27,000. This project has recently received approval from the government for adoption as a pilot project, which if successful will be the basis of delivery of care for Non-communicable diseases in India, at community level.

Thanking You,

Abhijit Chowdhury
Professor
Dept. of Gastroenterology
IPGME&R, SSKM Hospital
