Sun Pharma Science Foundation Research Fellowship, Nomination Form

To Whom It May Concern

I am pleased to formally inform you that Dr. Sukdev Manna has successfully completed a three-year MD in General Medicine, followed by an intensive three-year DM in Clinical Immunology and Rheumatology at the Institute of Medical Sciences, Banaras Hindu University (BHU), and the All India Institute of Medical Sciences (AIIMS), Rishikesh, respectively. He is presently appointed as an Assistant Professor in the Department of Rheumatology and Clinical Immunology at AIIMS, Kalyani, India.

Dr. Manna's research expertise centers on systemic autoimmune rheumatic diseases, with a particular emphasis on Rheumatoid Arthritis (RA). He has recently proposed a study titled "Autoantibody Profile of Patients with Rheumatoid Arthritis and Its Correlation with Disease Activity, Radiologic Joint Erosion, and Extra-Articular Manifestations-a cross sectional study from a Tertiary Care Centre in Eastern India". I will be closely supervising him to ensure the rigorous execution of this study, as well as the accuracy of all immunological testing.

The Sun Pharma Science Foundation Research Fellowship would provide Dr. Manna with a valuable platform to undertake this critical research, offering potential breakthroughs in the assessment and monitoring of rheumatoid arthritis among patients enduring a significant healthcare burden in Eastern India.

I wholeheartedly endorse Dr. Sukdev Manna for the Sun Pharma Science Foundation Research Fellowship. He is an exceptionally dedicated and motivated individual, committed to advancing his field and ensuring impactful outcomes through this research.

Sincerely

Dr. Kalyan Goswami

Professor & Head

Department of Biochemistry

Dean Academics

AIIMS Kalyani
